

IP69K Rated Cooling Fans

NMB introduces 16 cooling fan sizes that have achieved IP69K rating certification. IP69K rated cooling fans offer the highest proven protection available against closed range, high temperature, high pressure spray-downs. IP69K fans are designed to be protected from environmental factors, and are the desired component for harsh applications. The 16 cooling fans that are now offered with IP69K are available in 12VDC, 24VDC and 48VDC, with an air flow from 12 to 346 CFM. NMB cooling fan sizes available include 40mm, 60mm, 80mm, 92mm, 120mm, 150mm, and 175mm series. These new NMB IP69K rated fans are available with a new metal casing with high reliability in high temperature, plastic magnet and if desired, stainless NMB bearings with ceramic balls.

Benefits:

- Water Resistant
- High Performance
- Durable
- Low Power
- Long Life
- UL/VDE/RoHS Compliant

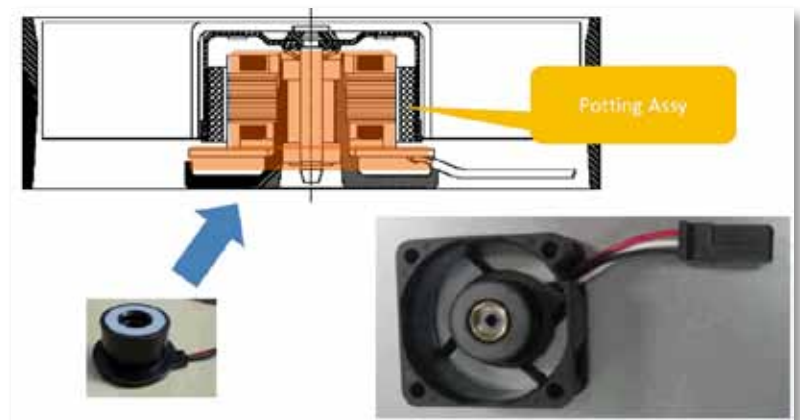

Applications:

- Harsh Environments (Outdoor/Indoor)
- Factory Automation
- Food Processing Industry
- Refrigeration
- LED Lighting System Cooling
- Inverters
- Telecom
