## Your Ideal Display Solution? Find it HERE.

- LCDs from .99-inch to 23.5-inch
- Deep Design Resources
- US-based Support

Industrial Application LCDs: High-bright, PCAP touch, and more.

Memory LCDs: Compare to OLED power performance

From wrist top to physician's office to factory floor, we've got the specs and expertise to meet your needs.

## TIANMA

Tianma Americas Inc. is a leading provider of small to medium size display solutions with a comprehensive range of LCD products and associated technologies. Target markets include avionics communications, HMI, marine, medical, POS, as well as consumer.

PASSION, EFFECTIVENESS, WIN-WIN

## wpg LCD KITTING SOLUTIONS

WPGA develops standard and customized LCD kits. Our kitting solutions program includes Displays, Single Board Computers and peripherals. These kits can be customized in an endless array of configurations and BOM's serving to deliver just the right solution to suit your design criteria.
